*David Stymiest: Dave spent his first 30 years as a hospital engineer, contractor, and consulting engineer. He joined SSR in 2000 as a Senior Consultant for facilities engineering and management. With more than 40 years of experience, he has a unique perspective on all facets of a healthcare facility's operation, construction, maintenance, engineering, and management. He is a nationally recognized author, speaker, and trainer in several fields including of standby power systems. Dave co-authored Facilities Engineering and Management Handbook for Commercial, Industrial and Institutional Buildings published by McGraw-Hill. Dave has published over 50 articles in various industry engineering publications including Health Facilities Management and ASHE Management Monographs. He earned both a Bachelor of Science in Electric Power Engineering and a Master of Engineering in Electrical Power Engineering from Rensselaer Polytechnic Institute in 1972 and 1973. In 1984, he completed a Certificate of Special Studies in Administration and Management from Harvard University, and is a registered professional engineer in three states.*

Tommy Gautreau, President
- 1:30 – 2:45 pm** **Educational Session: Melissa Simon, Business Development, Kevin Gilbert, Senior Field Advisor, TREMCO Roofing & Building Maintenance**  
*Fluid Applied Roofing Systems: Fluid applied roofing systems are excellent choices for restoring degraded but still functioning roofs; they are also applicable for new construction. This course defines what “fluid applied” means. It also describes the different types, uses and benefits of fluid applied roofing systems, including their ease of application, their potential for improving a facility’s sustainability, and their flexibility for use as a flashing system.*
- 2:45 – 3:00 pm** **Adjournment and closing comments**  
Thomas Gautreau, LASHFM President

Please visit our website @ [www.lashfm.org](http://www.lashfm.org) to register for this event. There you will also find directions to the host facility and other information about this meeting. Our society continues to grow and has outgrown the available meeting space at some of our facilities. Therefore, we will require that everyone register for this event and all future events. We must do this so that we can ensure that we have adequate meeting space and more importantly meals and beverages. Your participation and cooperation is appreciated and suggestions are welcome.
